About Us

WELCOME TO EXCELLENCE IN HEALTH CARE

At **EDRICH HEALTH CARE**, we are driven by a single vision—to enhance lives through innovative, high-quality, and one & top pharmaceutical solutions. As a trusted name in the healthcare industry, we are committed to delivering excellence across our comprehensive portfolio of pharmaceutical formulations, with a strong focus on injectable products, critical care solutions.

With a robust network of distribution partners and a customer-centric approach, we have established a strong presence across diverse healthcare markets. Our commitment extends beyond products.

We remain focused on our mission of delivering reliable pharmaceutical solutions that contribute to better health outcomes and a healthier future for communities worldwide.

Quality • Innovation • Trust • Care

Together, we are shaping the future of healthcare.

WORLD HEALTH ORGANIZATION

GMP CERTIFIED

ISO CERTIFIED

CITIRICH

Citicoline Injection IP

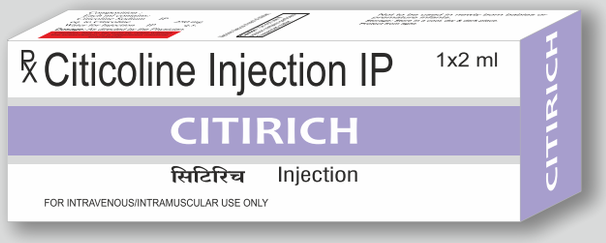
M.R.P. 379

Composition:

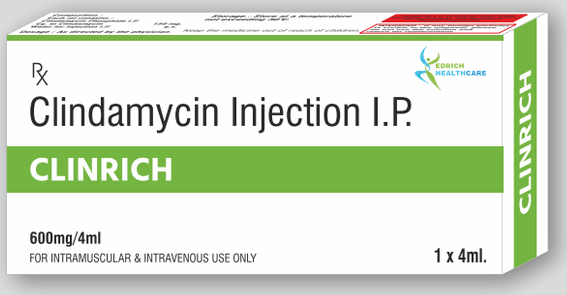
Citicoline Sodium-250mg

Primary Uses:

- **Traumatic Brain Injury (TBI):**
  Heal Head Injuries, Damaged Nerve Cells, Reduce Swelling.
- **Alzheimer's and Dementia:**
  Helps To Slow Cognitive Decline, Improve Memory.



Dose: 250mg/ml
Packing: 1X2ml Tray Pack



Dose: 150mg/ml
Packing: 1x4ml Tray Pack

CLINRICH

Clindamycin Injection IP

M.R.P. 254

Composition:

Clindamycin Phosphate-150mg

Primary Uses:

- **Skin and Soft Tissue Infections:**
  Staphylococcal & Streptococcal Skin Infections.
- **Bone and Joint Infections:**
  Effective For Treating (bone Infections) & Septic Arthritis.

TREXARICH

Tranexamic Acid Injection IP

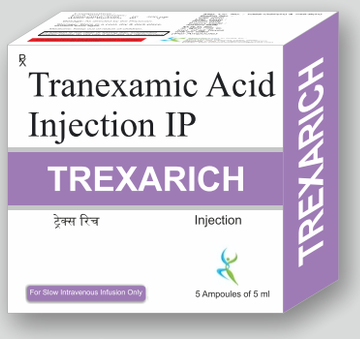
M.R.P. 83.88

Composition:

Tranexamic Acid-500mg

Primary Uses:

- **Control Excessive Bleeding:**
  Stop Or Reduce 1heavy Bleedin & Blood Clot Stay Stable.
- **Trauma & Accident Cases:**
  Control Internal & External Bleeding Quickly.



Dose: 500mg/5ml
Packing: 5x5ml Tray Pack

LORNITOX

L-Ornithine L-Aspartate Infusion

Composition:

L-Ornithine L-Aspartate-5gm

M.R.P. 589

Primary Uses:

- **Treat Hepatic Encephalopathy:**
  Help to cure Alcoholic Liver Disease, Fatty Liver Disease.
  Reduce High Blood Ammonia Levels.

Dose: 5000mg/10ml
Packing: 1x10ml Tray pack

Dose: 100mg/ml
Packing: 5ml Vial

LEVIRICH

Levetiracetam Concentrate for Infusion

Composition:

Levetiracetam-100mg

M.R.P. 128.91

Primary Uses:

- **Partial Onset Seizures:**
  Used To Treat Seizures.
- **Myoclonic Seizures**:
  Helps Control Sudden, Shock-like Muscle Jerks.

ETORICH

Etomidate Injection USP

Composition:

Etomidate USP-2mg

M.R.P. 1320

Primary Uses:

- **Procedural Sedation:**
  Used For Short Diagnostic or Therapeutic Procedures.
- **Anesthesia in Hemodynamically Unstable Patients:**
  Preferred In Patients With Trauma, Shock, Heart Disease.

Dose: 2mg/ml
Packing: 10ml Vial

RICHPAN-40

Pantoprazole for Injection IP

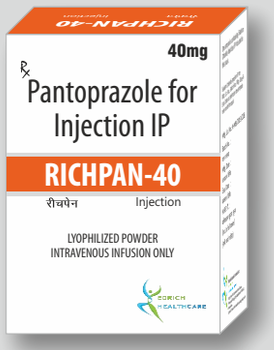
Composition:

Pantoprazole Sodium-40mg

M.R.P. 56.5

Primary Uses:

- **Gastroesophageal Reflux Disease (GERD):**
  Treat Severe Acid Reflux Conditions & Reduce Acid Production.
- **Peptic Ulcer Disease:**
  Helps Ulcers Heal Faster.



Dose: 40mg/vial
Packing: 10ml Vial With SWFI

TRARICH

Ceftriaxone Injection IP

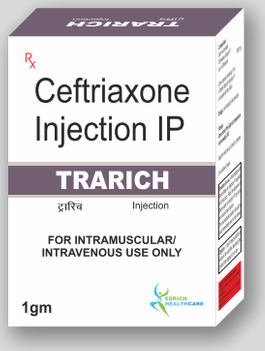
Composition:

Ceftriaxone Sodium-1000mg

M.R.P. 66.64

Primary Uses:

- **Meningitis:**
  Used For Bacterial meningitis, A Serious Infection.
- **Bloodstream Infections (Sepsis):**
  Used In The Treatment Of Sepsis, A Life-threatening Condition.



Dose: 1000mg/Vial
Packing: 10ml Vial With SWFI

TRARICH-S

Ceftriaxone & Sulbactam Injection

Composition:

Ceftriaxone Sodium-1000mg,
Sulbactam Sodium-500mg

M.R.P. 459

Primary Uses:

- **Respiratory Tract Infections:**
  Severe Infections Of The Lungs And Airways, Including Pneumonia.
- **Surgical Infection Prevention:**
  Used In Surgery To Reduce Risk Of Postoperative Bacterial Infections.

Dose: 1500mg/Vial
Packing: 10ml Vial With SWFI

TRARICH-SE

Ceftriaxone Disodium Edetate & Sulbactam Powder for Solution for infusion

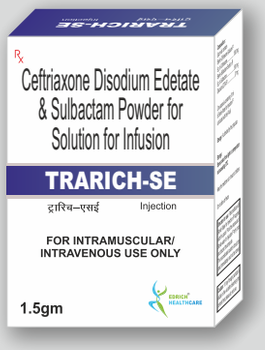
M.R.P. 1290

Composition:

Ceftriaxone Sodium-1000mg,
Sulbactam Sodium- 500mg

Primary Uses:

- **Gynecological Infections:**
  Post-Surgical Infection.
- **Prevention:**
  Before Or After Surgery To Reduce The Risk Of Bacterial Infections.



Dose: 1500mg+EDTA/vial
Packing: 10ml Vial With SWFI

MOXTOX-1.2

Amoxycillin & Potassium Clavulanate Injection IP

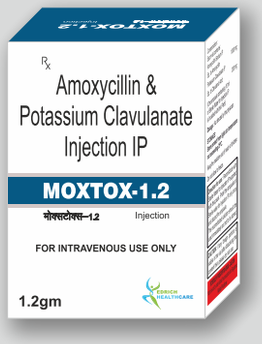
M.R.P. 157

Composition:

Amoxycillin Sodium-1000mg,
Potassium Clavulanate- 200mg

Primary Uses:

- **Bacterial Infections:**
  Eliminate Bacteria That Cause Infections.
- **Respiratory Tract Infections:**
  Severe Infections Of The Lungs And Airways, Pneumonia, Bronchitis, And Other Lower Respiratory Tract Infections.



Dose: 1200mg/Vial
Packing: 20ml Vial With SWFI

CEFETOX-PLUS

Cefoperazone & Sulbactam Injection

M.R.P. 1295

Composition:

Cefoperazone Sodium- 1000mg,
Sulbactam Sodium- 500mg

Primary Uses:

- **Intra-abdominal Infections:**
  Treating Infections Within The Abdomen, Such As Peritonitis, Biliary Tract Infections.
- **Gynecological and Bloodstream Infections:**
  Gynecological Infections, Septicemia (bloodstream Infections), And Post-surgical Infections.

Dose: 1500mg/Vial
Packing: 20ml Vial With SWFI

PIPTOX-4.5

Piperacillin & Tazobactam Injection IP

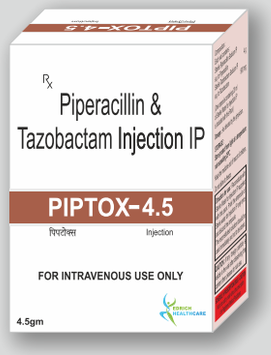
M.R.P. 447

Composition:

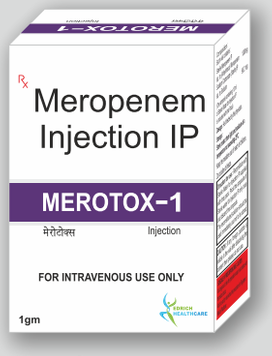
Piperacillin Sodium- 4g,
Tazobactam Sodium- 500mg

Primary Uses:

- **Skin and Soft Tissue Infections:**
  Severe Skin, Wound, And Soft Tissue Infections By Control Bacterial Growth.
- **Bloodstream Infections (Septicemia):**



Dose: 4500mg/vial
Packing: 20ml Vial With SWFI



Dose: 1000mg/Vial
Packing: 20ml Vial With SWFI

MEROTOX-1

Meropenem Injection IP

M.R.P. 1067

Composition:

Meropenem- 1000mg

Primary Uses:

- **Urinary Tract Infections:**
  Complicated Urinary Tract Infections.
- **Skin and Soft Tissue Infections:**
  Severe Skin, Wound, And Soft Tissue Infections, Reduce Inflammation And Promotes Healing.

MEROTOX-S

Meropenem & Sulbactam Injection

M.R.P. 2899

Composition:

Meropenem-1000mg,
Sulbactam Sodium- 500mg

Primary Uses:

- **Intra-abdominal Infections:**
  Serious infections of the abdomen, such as peritonitis. Infections involving the stomach, intestines, liver.

Dose: 1500mg/Vial
Packing: 20ml Vial With SWFI

AZIJEC

Aztreonam for Injection USP

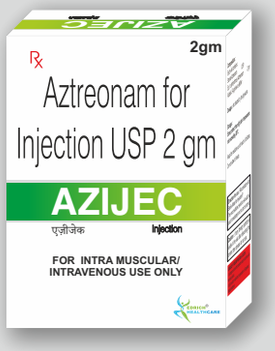
Composition:

Aztreonam- 2gm

M.R.P. 1799

Primary Uses:

- **Respiratory Tract Infections:**
  Treatment of bacterial infections of the lungs and airways.
- **Urinary Tract Infections (UTIs):**
  Effective in treating urinary tract infections, including kidney and bladder infections.



Dose: 2000mg/vial
Packing: 20ml Vial With SWFI

Dose: 2500mg/vial
Packing: 30ml Vial With 20ml SWFI Tray Pack

ZAVERICH

Ceftazidime & Avibactam Powder for Concentrate for Solution for Infusion

Composition:

Anhydrous Ceftazidime- 2000mg
Avibactam Sodium- 500mg

M.R.P. 7300

Primary Uses:

- **Skin and Soft Tissue Infections:**
  Severe staphylococcal or streptococcal skin infections
- **Bone and Joint Infections:**
  Treating osteomyelitis (bone infections) and septic arthritis.

AVIRICH

Avibactam Injection

Composition:

Avibactam Sodium- 500mg

M.R.P. 2990

Primary Uses:

- **Ventilator-Associated Pneumonia:**
  Treatment of severe lung infections
- **Infections Caused by Multidrug-Resistant (MDR) Bacteria:**

Dose: 500mg/Vial
Packing: 20ml Vial With SWFI

COLIRICH

Colistimethate Sodium for Injection

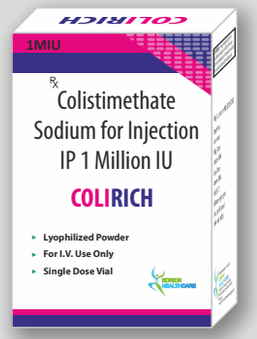
M.R.P. 1850

Composition:

Colistimethate Sodium- 1Million IU

Primary Uses:

- **In Treatment of Bloodstream Infections (Bacteremia):**
- **Intra-Abdominal Infections:**
  Used as combination therapy for severe abdominal infections.



Dose: 1Million IU/vial
Packing: 10ml Vial With Tray and Cover

DOXYTOX

Doxycycline for injection USP

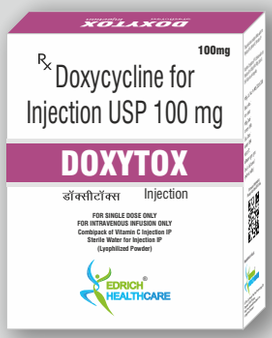
M.R.P. 562

Composition:

Doxycycline Hydrochloride-100mg
Vitamin C

Primary Uses:

- **Skin and Soft Tissue:**
  Effective against various bacterial skin infections, Reduce inflammation,control infection & Promote healing.
- **Urinary Tract Infections (UTIs):**
  Used in the management of certain urinary tract infections.



Dose: 100mg/Vial
Packing: 10ml Vial With Vit C and SWFI

GLUTATOX

Glutathione for Injection & Vitamin C Injection IP

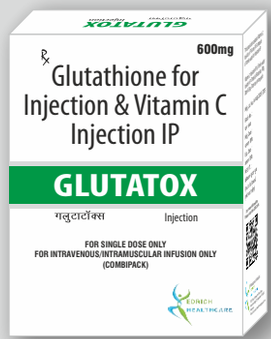
M.R.P. 2799

Composition:

Glutathione- 600mg, Vitamin C

Primary Uses:

- **Antioxidant Support:**
  Powerful antioxidant, Protect cells from damage & Support overall cellular health.
- **Skin Brightening & Skin Health:**
  Reduce oxidative damage and promoting a more even-looking complexion. Vitamin C supports collagen formation for healthier skin.



Dose: 600mg/Vial
Packing: 10ml Vial With Vit C and SWFI

IVGLUTATOX-1200

Glutathione for Injection

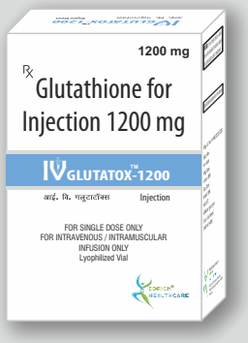
M.R.P. 5660

Composition:

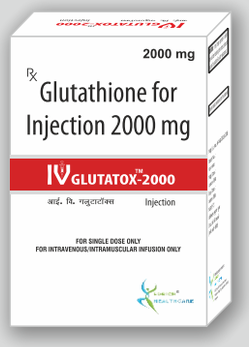
Glutathione USP- 1200mg

Primary Uses:

- **Liver Protection & Detoxification:**
  Detoxification processes within the liver.
- **Support During Chemotherapy:**
  Supportive therapy in certain cancer treatments.



Dose: 1200mg/Vial
Packing: 20ml Vial With Vit C and SWFI



Dose: 2000mg/Vial
Packing: 20ml Vial With Vit C and SWFI

IVGLUTATOX-2000

Glutathione for Injection

M.R.P. 7290

Composition:

Glutathione USP- 2000mg

Primary Uses:

- **Neurological Support:**
  Adjunct therapy in neurological conditions.
  Support nerve cell function.
- **Immune System Support:**
  It helps maintain healthy immune function

TIGETOX

Tigecycline Injection IP

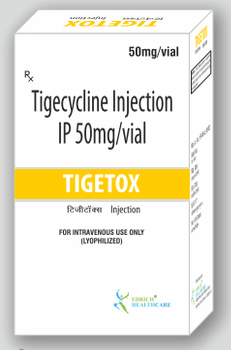
M.R.P. 5999

Composition:

Tigecycline- 50mg

Primary Uses:

- **Multidrug-Resistant (MDR) Bacterial Infections:**
- **Hospital-Based Severe Infections:**
  Tigecycline may be used as part of a bacterial infections.



Dose: 50mg/Vial
Packing: 10ml Vial With Tray and Cover

MINOTOX

Minocycline for Injection USP

Composition:

Minocycline Hydrocloride- 100mg

M.R.P. 3899

Primary Uses:

- **Complicated Intra-Abdominal Infections:**
  Eliminate infection-causing pathogens and supports patient recovery.
- **Bloodstream Infections (Bacteremia):**
  May be used in the management of serious bloodstream infections caused by susceptible organisms.

Dose: 100mg/Vial
Packing: 10ml Vial With Tray and Cover

TECOTOX-400

Teicoplanin Injection IP

Composition:

Teicoplanin- 400mg

M.R.P. 3999

Primary Uses:

- **Serious Gram-Positive Bacterial Infections:**
  Works by inhibiting bacterial cell wall synthesis, helping to eliminate the infection.
- **Endocarditis:**
  Treatment of infective endocarditis, an infection of the heart's inner lining or valves caused by Gram-positive bacteria.

Dose: 400mg/Vial
Packing: 10ml Vial With Tray and Cover

POLYRIC-B

Polymyxin B Injection IP

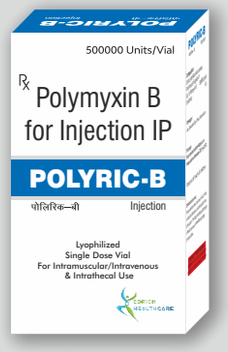
Composition:

Polymyxin B- 5Lakh IU

M.R.P. 3299

Primary Uses:

- **Severe Gram-Negative Bacterial Infections:**
  Polymyxin B primarily used treatment of serious infections caused by susceptible Gram-negative bacteria.
- **Bloodstream Infections (Septicemia):**
  Management of severe bloodstream infections & helping to Control the spread of infection throughout the body.



Dose: 5Lakh IU/Vial
Packing: 10ml Vial With Tray and Cover

CLARICH

Clarithromycin for Infusion BP

M.R.P. 1799

Composition:

Clarithromycin- 500mg

Primary Uses:

- **Skin and Soft Tissue Infections:**
  Clarithromycin helps treat bacterial infections of the skin and soft tissues, such as cellulitis and infected wounds, caused by susceptible bacteria.
- **Atypical Bacterial Infections:**
  It is particularly useful against atypical pathogens such as Mycoplasma pneumoniae, Chlamydia pneumoniae, and Legionella pneumophila, which are common causes of respiratory infections.

Dose: 500mg/Vial
Packing: 20ml Vial With 10ml SWFI Tray

Dose: 4000mg/Vial
Packing: 50ml Vial With Tray and Cover

FORICH

Fosfomycin Injection

M.R.P. 4899

Composition:

Anhydrous Fosfomycin- 4gm

Primary Uses:

- **Respiratory Tract Infections:**
  In certain severe bacterial lung infections.
- **Bone and Joint Infections:**
  Prescribed for difficult-to-treat bone and joint infections.

FERICH

Ferric Carboxymaltose Injection

M.R.P. 4699

Composition:

Ferric Carboxymaltose- 50mg

Primary Uses:

- **Anemia Associated with Chronic Kidney Disease:**
  Patients with chronic kidney disease who develop iron deficiency.

Dose: 50mg/ml
Packing: 10ml Vial With Tray and Cover

ANIRICH

Anidulafungin for Injection 100mg

M.R.P. 16950

Composition:

Anidulafungin - 100mg

Primary Uses:

- **Treatment of Invasive Candidiasis:**
  Antifungal medication primarily used to treat serious fungal infections caused by Candida species.
- **Candidemia (Candida Bloodstream Infection):**
  Prescribed for candidemia.

Dose: 100mg/vial

Packing: 30ml Vial With Tray and Cover

Thank you
